Scattered through the mountains are numerous small basches, or "parks," in he nich grains and segeta ses, of the first quality, can be faised to even greater advantage than in the lower valleys.

In like manner, cost of the head, available for stock the at present.

On one of the trips of an As himsall steamer the steerage has largers were so numerous as to make them uncomfortable. The steeping accommodations were amoly described by a Californian, ten ances of art

The progress of the Stock Interests of the county may be gathered from the fellowing figures taken from the Assersor's reports for 1871 and 1672. In the former year there were 779 horses, 190 mules, 5,714 cows, 2,321 ones, 3,334 sheep, and 336 swins. In 1872, there were 970 horses, 36 mules, 6,38 colves, 30,314 sheep, and 36 colves, 1,125 oven, 6,38 colves, 30,314 sheep, and 36 colves, 1,125 oven, 6,38 colves, 30,314 sheep. and 363 swine. Last year, the wooherry of the county amounted to 174.812 rounds:

COLORADO SERINGS.

The town of Colorado Springs is situated in the centre of Ell Paso county, at a point where the Monument Creek mustes with the Forname igni Bouide, and where the Ute

Railway, setenty an miles south of Denver the metropo-lis of the Territory, and forty-two miles north of Pueblo

The town takes its same from numerous valuable minerall springs in the immediate heighborhood. The most important of these are grouped regerier about five nifes to the west, in a bea nifel glen, to which has been given the name of Maniton. These are the celebrated "fiftling Springs," which, years ago, were made known to the world by Fremont, Ruxton, and of er writers. Formerly they were visited on account of their medicinal virtues of the strength of the content of their medicinal virtues of the strength of the content of their medicinal virtues of the content of their medicinal virtues of the content of t the native tribes of Indians, who regarded them as super-natural phenomena caused by the direct action of the Great Spirit. In latter times, notwishearding the cifficulty of necess to them, their fame has attracted large numbers of invalids, anxious to avail themselves of the bealing waters. During last year, any sums of money have been expended in laying out, and scorning the ground in the neighborhous; a munisome, commiscious, and comfortable hotel has been built, bath-houses have been fitted up, and many other conveniences provided. Now that there famous springs are so easily accessible, and that every an terractive a point arily Saratoga in the East. Thousands will throng to them every year, and many will tall e up respanent abodes around them. The springs are seven mumber, and are weld both for grinking and on hing purposed, being high y beneficial in the unitality, den diseases, general debilay, and numerous outer ailments witch we need not catalogue.

In addition to these wonderful springs, some of the most remarkable and magnificent scenery on the American continent is in proximity to the lown.

or et it over on the kero, tore the fair a of High Directly in front is Pike's Peak, the most celebrated of ind resemblowe et it of four pair has of sawdust! the Rocky hountains, rising a 2 height of newards of ten that dog ran and lo its master wagging its 14,000 feet above the level, in head towered with smow all the year. Kight and left of the fresh is a long range of the year. Kight and left of the fresh is a long range of "Foot-rills" wofey mountains they would be torned in any other lend; "infinitely diversified with variett of form and outline, with no cy crops and tismbled boulders and smooth sloped, with constant play of ight and stade; with contrast of rich and somerer cours, with strakes of snow and dark groves of pine."—the whole forming a pandranta of exceeding beduty, of which the eye i ever tires.

Three miles from town is the wonderful and farrous grows of one columns of structure, which look like obe-ised of some py-gone rate of plants. Immediately nervoid Maniton, are the Rain ow Glen, the Canon and Fa is of the Fountain, and the Die Pass. Indied, in all directions, are scores of grandeur and of deauty. "The accountage of this point," says a recent writer, "is trut it emponent once into the neart of the mountains."

Peters' Instical Touthly, No. 72, is to rant, themselves to build not a town of confiderable lize and institute to the following selections of new portance. Here will be a place of resort-lof almost unequalet attractions—known the worst over, and year brought requested of visitors, from a most every State in the nion, and from furnigm language, each suspensing season will bring an increasing throng the life many, who are in search of sea th, have sured to see it as their permanent home, and many more, will sear e tere in order to soure the mane in stimove Joen.

Everything positive is being come at relight in the attractive contracter of a meet on which Natural has believed as many advantages. It is intended to make Colorado Springs not only fainous and Sanitarium, but a solar an accucations centre, and a home of refined society. Sange reservations have been made for scannes and sincret institubons, and the "own, ad high still is in infator, and undertaken the erection of a cost y server stone. Wice treets are average and specious seasons have been air

COLDBADO.

To borre we the expression of a well-known writer, the a said e-op part of a being on their eastern flank, not in the improvements. The and having been longlift in the on their eastern flank, not integer large at a low rates, and leaving been longlift in the membrane tame, and a part of it bong takes up by the membrane tame, and a part of it bong takes up by the membrane tame, and a part of it bong takes up by small east a stream of the colon as in the membrane tame, and a part of it bong takes up by small east a stream of the colon as in the membrane tame tame tame to the toph and toph will send to develop the tame.

And of the work of the work of the more tame approximation of the large large and the colon as in the colon and the whole of the profits derived from the make it is the beautiful improvements. The and having been longlift in the large large large large and the colon as in the large lar

Persons may become colomists by purchasing certifical a of members in a people colomists by purchasing certifical a for members in which are of four genoes, according to the problems generoyed: 150, 755; \$150,1500. A certificate entitient a memoer to locate certain out and ancia. These are of three cenominations: "Business Lots," 25 feet by 150 feet transfing in prices from 150 to 250; "Reseauce 16.00," 35 feet by 150 feet, and 150 feet by 150 feet, ranging in prices from 250 to 250; "Unliving Tracts," of the forward simmanc prices: One-acre tracts, 150; byeacre tracts, 250; ten-acre tracts, 250; byeacre tracts, 250; ten-acre tracts, 250; to 550 an acre; twenty-acre tracts, 250 to 150 an acre; formy-acre tracts, 250 to 550 an acre; the stock of the certificate entitles its holder to locate a \$10 to 550. A 150 certificate entitles its holder to locate a \$10 to 550. Aso residence of a 222 certificate, any residence of irrespective of price; a 250 certificate; to locale a residence and residence at, or a mainess of and outlying tract, or a residence to and out ping tract, provided the total value of the lands located space not expect \$200; a some certifiof the lands sociate class not expect \$100; a \$300 certificate, to ocare similar lots as the previous, not irrespective of price. The amo not paid for the certificate is credited for the lots occased, and the bulabon, if the value of the one exceeds that of the certificate; can be taken any time within twelve months of the location, or of the first location. tion, if more than one is made upon the same certificate. tion, if more than one is made upon the same certificate, he embers may take out as many pertification as they please, out are bound to make ane improvement that is to put up a house, or make some equivalent expenditure, for each certificate, within four upon to of making the first location upon it. Upon this being done, and payment of the ols completed, needs are given conveying till title, with one condition, however, that no intoxicating liquors shall ever be sold on such lots in any premises having the character of a place of sublic resort; breach of this condition involves forfeiture of the property.

The lands about the Town, of which the Colony possess about 10,000 heres, are excellently adapted for cultivation. A great portion is a most as ful as a table, with an excee. A great portion is a most as fail as a table, with an exceedingly slight slope, so that it can be irrigated with the utmost facility. Irrigating canads have been constructed, and large reservoirs for the authorse of storing water as an astrance against exceptional y dry seasons. The local ty and the soil are especially suitable for the cultivation of small fruits, and for these a ready plantet will be four d. In addition to the supply required by the Town, and by the minesimous far away, a company has been formed for the purpose of establishing a Canning Factory in the Town so soon as the quantity of fruit grown shall exceed the home consumption.

home consumption.

The progress already thise by the Town, has been astonistingly rapid. Up to dateq-that is, little more than eighteen months from the confinencement of the enterprise where have been 466 certificates of membership taken out, on most of which two locations have been made. The population, according to the treatest estimate we can form, is between fifteen and eighteen hundred. The various institutions necessary to a well ordered community, have been quickly grit into warding order. There are ty, have been quickly got into working order. There are two chure see built, one is course of erection, and another very shortly to be commended, two publicschools, another very shortly to be commended, two publics chaols, a lyc, cum, a newspaper, a postoffice, a telegraph office, a bank three or our arge note is, numerous bankering houses, somes of a 1 kinds, we i mocked—where the huxuries as we I as the necessaries of life can be obtained—livery stables, our The Town has been organized with trustees and other officers, and several dompanies have been former for the prosecution of important, communical which the livery in the many midcluding a steam saw mil in active operation, brick-mas-nfacture, fruit-canning, etc. In short, the basis has been well laid for growing progress and prosperity

To sigh, therefore, as are seeking new tomes, Coloraco Springs offer advantages of the highest order.
